🎮 What is a Playsheet?

A playsheet is your quick, strategic game plan to level up your academic skills. It helps you reflect, apply, and take action on what you've learned — just like a pro gamer prepares for their next match.

🎮 ARI Playsheet #05: Source Code – Referencing The Right Way

🎯 Key Moves (Summary)

- Referencing shows where your ideas come from and gives credit to original authors.
- It helps avoid plagiarism and boosts the credibility of your work.
- Different referencing styles exist (e.g., Harvard) — which is the one we require.
- Include in-text citations *and* a reference list at the end.
- Keep track of sources as you research — use digital tools or note systems.
- Don't guess! Use guides, tutor help, or referencing generators if unsure.

🧠 Player Insight (Reflection Prompt)
Have you ever lost marks for poor referencing? What could you do differently next time?

🎮 Power-Up Action (Practical Task)
Practise referencing one article using the correct style — even if you're not using it yet.
